Developing Enterprise-wide Measures for Tracking Acquisition Performance

1. Section 804 of the Defense Appropriations Act
   - Improvement of Software Acquisition Processes
2. Program Requirements
   - Shall include, among other things: “Efforts to develop appropriate metrics for performance measurement and continual process improvement.”
3. Many organizations within DoD have developed measures for tracking various aspects of acquisition performance relevant to their mission
4. DoD does not have a standard, comprehensive set of measures for managing the development of its portfolio of software intensive systems
5. The SEI assisted one acquisition organization in developing measures to track their performance
