FloCon®2009

Call for Presentations

www.cert.org/flocon

January 12-15
Scottsdale, AZ

CERT | Software Engineering Institute | Carnegie Mellon

Submit Presentations for FloCon2009!

FloCon is an open workshop that provides a forum for operational analysts, tool developers, and other parties interested in the security analysis of large volumes of traffic to develop the next generation of flow-based analysis.

Presentations reflecting experience and practical issues are especially welcome. Appropriate topics include, but are not limited to:

- *Flow for network forensics*
- *Flow for network inventory*
- *Flow for incident response*
- *visualizations of Flow and analytical results*
- *multi-stage analysis methods*
- *Flow collection infrastructure*
- *merging Flow with other data sources*
- *coordination among Flow analysis teams*
- *threat analysis*
- *new or innovative Flow methods*
- *application detection*
- *topology mapping*
