

SATURN 2016

12th Annual Software Engineering Institute (SEI)
Architecture Technology User Network Conference

Linda M. Northrop Software Architecture Award Nomination Form

Nominator's Information

Name

The nominator must provide evidence that the nominee meets one or more of the award criteria; please fill in all that apply.

Please state how the nominated individual or team meets the award criterion for application of architecture-centric practices leading to successful development and launch of a product or system.

Organization

Email Address

Please state how the nominated individual or team demonstrates the award criterion for leadership in motivating others in an organization or in the community to adopt an innovative architecture-centric practice.

Phone Number

Nominee's Information

Name (Individual or Team)

Please state how the nominated individual or team meets the award criterion for a product or innovative architecture-centric practice that produced a persistent change in behavior and results.

Point of Contact (if a Team)

Please state how the nominated individual or team meets the award criterion for a product or innovative architecture-centric practice that produced a persistent change in behavior and results.

Organization

Please state how the nominated individual or team meets the award criterion for a product or innovative architecture-centric practice that produced a persistent change in behavior and results.

Email Address (POC)

Please state how the nominated individual or team meets the award criterion for a product or innovative architecture-centric practice that produced a persistent change in behavior and results.

Phone Number (POC)

Please state how the nominated individual or team meets the award criterion for a product or innovative architecture-centric practice that produced a persistent change in behavior and results.

Award Criteria

- Application of architecture-centric practices leading to successful development and launch of a product or system
- Leadership in motivating others in an organization or in the community to adopt an innovative architecture-centric practice
- Product or innovative architecture-centric practice that produced a persistent change in behavior and results
- Emergence of a new or different perspective on architecture-centric engineering

The nominator must provide evidence that the nominee meets one or more of the award criteria. The publication of results may be cited as evidence, but publication is not a requirement for the award.

Each nomination packet must include

- this completed form with tangible, measurable, and verifiable evidence of project success listed
- two endorsements from individuals external to the nominee's organization

If selected as an award recipient, the nominee or one representative from the winning team will make a presentation at the SATURN Conference, which will be held May 2–5, 2016, and will be available to receive the commemorative plaque when the award is announced. Will the nominee be able to fulfill this requirement?

Yes No

Please complete and send this form plus the two external endorsements (these can be sent separately) to northrop-award@sei.cmu.edu no later than February 29, 2016. Thank you for your contribution!
