2024 SEI Research Review Crafts Connections

November 6, 2024—The SEI recently announced the agenda for its 2024 Research Review. The annual event showcases SEI research and development projects from the past year. It will be held in person in Pittsburgh, Pennsylvania, on Wednesday, November 13. Attendance at this free event is limited, and registration is required.

This year's theme, *Crafting Connections*, highlights the SEI's collaborative research to address the capability, timeliness, affordability, and trustworthiness of software for national defense and security.

Presentations will detail some of the SEI's most forward-leaning work in artificial intelligence, malicious code detection, rapid certification, modeling, and assurance.
